

Intelligence Community Staff:

GS-16/17, Chief, Planning Branch

This officer is responsible to the D/DCI/IC and AD/DCI/IC for directing and coordinating with intelligence community entities and USIB/IRAC intelligence planning activities assigned by the DCI to the IC Staff. He is responsible for integrating intelligence objectives and requirements into a program of work for the IC Staff and producing with intelligence program managers in support of MPRRD resource planning profiles for the Community in the five to ten year time period and generally monitoring performance during the period. His Branch will contribute to the development of planning and programming activities of Community agencies, formulate DCI guidance with respect to these matters where appropriate and assist elements of the IC Staff in the production of national intelligence objectives, perspectives, and DCI resource guidance documents. His contacts will be the committees of USIB and IRAC, the intelligence program managers, the National Intelligence Officers, and various members of the planning staffs of departments and agencies responsible for intelligence programs. These contacts will generally be at the two-star and supergrade level.
